

OACS School Year Calendar 2010-2011

Provisions made by the Ministry of Education under Regulations 298 and 304 regarding school days and the school year calendar apply to public schools only. Therefore, the calendar issued by the MOE is optional advice for independent schools.

1. **Instructional Time**

- a. Each school should provide 1000 hours of scheduled instructional time per school year by finding the right balance of days per year and hours per day to fit its local circumstances, considering such factors as transportation time and other demands on its students.
- b. The OACS standard of 1000 hours per year exceeds Ministry requirements by 50 hours. (Ministry requirements are 190 instructional days of 5 hours each). This higher standard is explained in [Time to Learn: The OACS Report on Learning Time, 2000](#).

2. **Schools days** are all days available for instruction and professional activities. There are 196 school days available between September 1 and June 30 (inclusive).

$$\text{School Days} = \text{Instructional Days} + \text{Professional Activity Days}$$

3. **Instructional Days**

- a. For **elementary schools**, the school calendar should specify the number of instructional days to meet the standard of 1000 hours per year. [Constructing an Elementary School Timetable](#) may be a useful planning tool.
- b. For **secondary schools**, the calendar should specify the appropriate number of instructional days to meet the (OSSD) diploma requirements for credit hours (110 hours per credit) and designate up to 10 of the instructional days as examination days.

4. **Professional Activity Days**

- a. The OACS recommends that each school designate 5 Professional Activity Days during the school year, including the OCSTA convention for elementary and high schools.
- b. OACS also recommends that schools schedule some Preparation Days before the school year.
- c. Other professional development opportunities will follow at a later date.

5. **Holidays**

- a. Dates listed are those the MOE has mandated for the public systems (10 days at Christmas and 5 days for March break). OACS schools should plan holidays to fit local circumstances. Changing the holidays may change the number of instructional days.

6. **Start of School**

- a. OACS schools should plan their start of school date to fit local circumstances.

NOTE: This calendar does not define teacher contracts.
